

Surfactants, Foaming Agents and Detergents

AUS-DET

Description

AUS-DET is a concentrated blend of detergents which improves the drilling characteristics of low solids and water based muds.

Application

AUS-DET may be used to reduce bit balling and drill rod collaring in soft sticky formations. It may also be used for dispersing the build up of drilled solids in the bit and also to disperse a build up of solids in diamond drill rods.

AUS-DET may also be used in water well drilling to promote the rapid settling of cuttings at the surface.

Advantages

- Can be added directly to the mud system.
- Is non-toxic and does not ferment.
- Effective in low concentrations.

Usage

To reduce stickiness of clays use 2 to 5 litres/1,000 litres water.

To assist in water well development use 1 to 2 litres/1,000 litres water.

Packaging

AUS-DET is packaged in 20 litre boxes, 25 litre plastic pails and 205 litre steel drums.
