

Viscosifiers

AUS-BEN

Description

AUS-BEN is a premium grade Wyoming sodium bentonite which meets or surpasses the API 13A test specifications for drilling grade bentonite.

Application

AUS-BEN is an effective viscosifier in fresh and brackish water. It provides good filtrate control and is an excellent product for use in the construction and civil engineering industries. AUS-BEN has a consistent quality and can be used in conjunction with all other drilling mud products.

Advantages

- Provides hole stability in poorly consolidated formations.
- Is a natural and environmentally safe product.
- Is tolerant to minor contaminations – slurry can be treated and recycled.

Usage

- Normal – 30 to 60 kgs/1,000 litres.
- Unconsolidated, caving formations – 70 to 90 kgs/1,000 litres.
- Lost circulation – 80 to 100 kgs/1,000 litres.

Packaging

AUS-BEN is packaged in 25kg multi-walled paper bags.
