

AMC Glycol

Description

AMC Glycol is a blend of glycerol, polyglycerols and polyglycols and is used in water based drilling fluids to improve lubricity and shale stability. AMC Glycol is not affected by contaminants commonly encountered.

Application

AMC Glycol reduces torque and drag, stabilises reactive formations and reduces bit balling tendencies.

Advantages

- Compatible with most water based drilling fluids.
- Unaffected by contaminants.
- Environmentally friendly.

Usage

Add 4-10% by volume of AMC Glycol to the mud system.

Typical Properties

Appearance: Dark brown liquid.

pH (10% aqueous solution): 12.

Specific gravity: 1.2

Packaging

AMC Glycol is packaged in 55 gallon drums.
