

Aus Floc Block

FLOCCULANT (TABLET)

Description

AUS FLOC BLOCK is an anionic flocculant in the form of a solid block which has been specially designed to slowly dissolve in water flows and to flocculate drill solids and promote them settling in the surface pits.

Application

AUS FLOC BLOCK has been developed for use in situations where dosage equipment is unavailable or difficult to manage.

AUS FLOC BLOCK is ideally placed in a wire basket which is situated in the return stream and allowed to slowly dissolve.

AUS FLOC BLOCK should be located at least 3 – 5 meters before the settling pond.

The dosage of AUS FLOC BLOCK is dependant upon the flow rate, volume of treatment fluid and cuttings required to treat.

Advantages

- Easy to use and convenient
- Economical
- Reduces water requirements
- Increases penetration rates

Usage

Recommended usage: place 1 tablet in the return line per shift or as required.

Packaging

AUS FLOC BLOCK is packaged in 24 kg box, 8 x 3 kg tablets per container.
